Advanced Asset Tracking & Monitoring

VIABLE AND PROTECTED ANYWHERE

SecureTrac offers you unparalleled tracking and monitoring of trailers and other mobile or static assets. The integration of numerous technologies provides the most advanced and cost-effective monitoring solution for powered and unpowered assets alike.

With SecureTrac you now have maximum visibility of your assets via satellite communication. This ground-breaking self-powered unit allows you to track the location, movement, door security, and temperature of your mobile asset for more than 60 months from one replaceable battery.

Technical Specifications

The SecureTrac MMT meets the following standards:

- Intrinsic Safety (UL Class 1, Division 1, Groups A, B, C, D).
- FCC CFR parts 15 & 25.
- CE Mark, COFETEL, HERO.
- SAE J1455.
- MIL STD 810.
- NEMA 4X.
- IP67.

Reporting Examples

- Daily timed.
- Stop/ Start Motion.
- During motion intervals.
- External sensor triggers.
- Geo-fence option.

WHY SECURETRAC IS THE RIGHT CHOICE

- Device is delivered complete and **ready-to-go**.
- **Long-Life Battery Capability:** Up to six years battery operational life.
- **Least Cost Asset Tracking Solution:** High Return on Investment.
- **Wireless installation.**
- **Extendable RFID functionality:** Additional sensors for temperature, security, doors, etc.
- **Configurable Programming:** Flexible messaging and alarm settings programmed by wireless connection for tailored reporting.
- Built-in motion detector for geo-fence alerts.
- **Certified to SAE & Military Standards:** Reliability in extreme conditions.
- **Single Global Network:** no Roaming Charges or other Hidden Costs.
- **Superior Jam Resistance:** Cannot easily be Jammed, Spoofed or Intercepted.

MONITOR YOUR MOBILE ASSETS WITH **SECURETRAC**®

OEM Group, Pavilion Business Centre, 6 Kinetic Crescent, Innova Science Park, Enfield, England, EN3 7FJ.

MONITOR YOUR MOBILE ASSETS WITH **SECURETRAC**[®]

SecureTrac is the latest innovation in advanced monitoring of trailers and other powered or unpowered assets.

Advanced Asset Tracking & Monitoring

Options / Accessories

How it works-

The **SecureTrac's** low profile and stealth design allow it to be easily installed without the need for external wiring, power or antennas. Installs in minutes using automotive adhesive fixing pad.

Incorporating the latest RF technology for wireless sensing, SecureTrac will report the data you have specified: mobile asset location, movement, critical temperature breaches, when the door is opened, etc.

SecureTrac allows you to have total visibility of your assets wherever they are, via the online portal, with optional alerts sent directly to your email, mobile or PDA through a secure satellite uplink.

Door Sensor

- External magnetic or internal reed contacts.
- 0-4 minute arm/disarm delay function.
- Security tamper alarm.
- Multiple door inputs.
- Exit/entry log.

Temperature Sensor

- Up to 4 different temperature zones.
- External probe or internal sensor.
- -50°C to +120°C.
- Programmable threshold alerts.
- Temperature audit log.

SecureSeal Data

- Tamper evident seal.
- Indicative or Barrier.
- Alerts when seal opened.
- Real-time security control.

SecureTrac Protection Cover

- Extra assurance in heavy industrial environments.
- Can withstand direct strikes.
- Rubberized velocity compound.
- Customizable colour and shape.
